

JUL - SEP 2024

CaCTüs

Computation & Cognition Tübingen Summer Internship

APPLICATION:
cactus-internship.tuebingen.mpg.de

DEADLINE:
4 December 2023

CaCTüs is a fully funded 3-months internship at the Max-Planck-Institutes for Biological Cybernetics and Intelligent Systems in Tübingen and Stuttgart as well as the Tübingen AI Center, Germany. Participants will work on research projects spanning machine learning, electrical engineering, theoretical neuroscience, behavioral experiments, robotics and data analysis.

CaCTüs aims to boost the careers of talented students who experience significant difficulties in their pursuit of higher education.

Who can apply?
Bachelor and master students in the fields of computer science, maths, physics, engineering, neuroscience, psychology, cognitive science, bioinformatics and any other related fields.
